

# Japan Community Healthcare Organization Chukyo Hospital

## When patients residing overseas visit our hospital

To foreign patients without Japanese public medical insurance

In order to provide safe and secure medical care, patients residing overseas who wish to receive medical consultation and treatment at our hospital are, as a rule, required to contact our hospital through an agency that specializes in coordination.

The agency with which we have entered into a business alliance agreement is Kaikou International Healthcare Corporation (KIH). The "Patient Consultation Service" of our hospital will coordinate the patient's appointment with KIH.

Patients residing overseas who wish to receive medical consultation and treatment at our hospital should contact KIH first.

We ask for your understanding and cooperation in order to facilitate the smooth progress of medical consultation and treatment.

Please note that the coordination fee is the responsibility of the patient.

Foreign patients without Japanese public medical insurance

Request for coordination (Patients are responsible for the cost of coordination.)

### **Kaikou International Healthcare Corporation (KIH)**

Contact:

Miraika building 4F 3-2518, Nakajimashincho, Nakagawa-ku, Nagoya-shi, Aichi

TEL : +81-52-351-8889

E-mail: [info@kaikoukai-kih.co.jp](mailto:info@kaikoukai-kih.co.jp)

URL: <https://kaikoukai-kih.co.jp>

<https://kaikoukai-kih.co.jp/treatment/index.html>

Contacting through KIH, the following assistances are available.

- Guarantor and application support of medical stay visa
- Payment agent for medical expense
- Medical interpreter arrangement

\*"Visa for Medical Stay" is a visa issued to foreign patients wishing to visit Japan for medical purposes (including full medical check-ups). The visa is issued to their accompanying person(s) as well if necessary and as needed. For more information, please visit the Ministry of Foreign Affairs website.
